Inspired ideas for outdoor living

TrexPRO®

DESIGN HIGHLIGHTS

Refresh main patio area. Level and relay using large format, cut sandstone that has a contemporary hint but which is harmonious with the property

Rebuild steps to the pool, using stone complimentary to the new paving. Edge steps in complimentary edging to match the pool surround

Re-configure side steps so that it flows through from the main patio step up to the pool

Slatted screen conceals the view to the driveway.

Create a covered, dining and entertaining area.

One option shown, but this could be any of the concepts shared (or a derivation thereof)

Includes covered seating area, space for relaxing and a food preparation area

Steel pergola provides both shade from the sun and cover from the rain (with integrated drainage)

Refresh poolside paving, using same stone as the main patio
